

Documentation of Woocommerce Login/Sign up

Installation of Woocommerce Login/Sign up

Installation

1. Install Word Press from http://codex.wordpress.org/Installing_WordPress.
2. Upload via FTP: - Unzip the zip archive you have downloaded on your computer. Upload the folder to your server via FTP into the directory plugins on your Word press installation (wp-content → plugins).
3. Upload via Word press Admin: - Go to your WordPress admin panel, and then to Plugins. Click on "Add New" and then upload the zip file of the plugin using the "Upload Plugin" button you can find on top of the screen.
4. For the plugin to work as it should, Woo Commerce plugin has to be installed and enabled.

Activation

Once you have uploaded the plugin, activate your plugin in Plugins > Installed plugins. If it has been activated correctly, plugin control panel is available in the tab **Phoenix** → **Woocommerce Login/Sign up** in Word Press dashboard.

Description

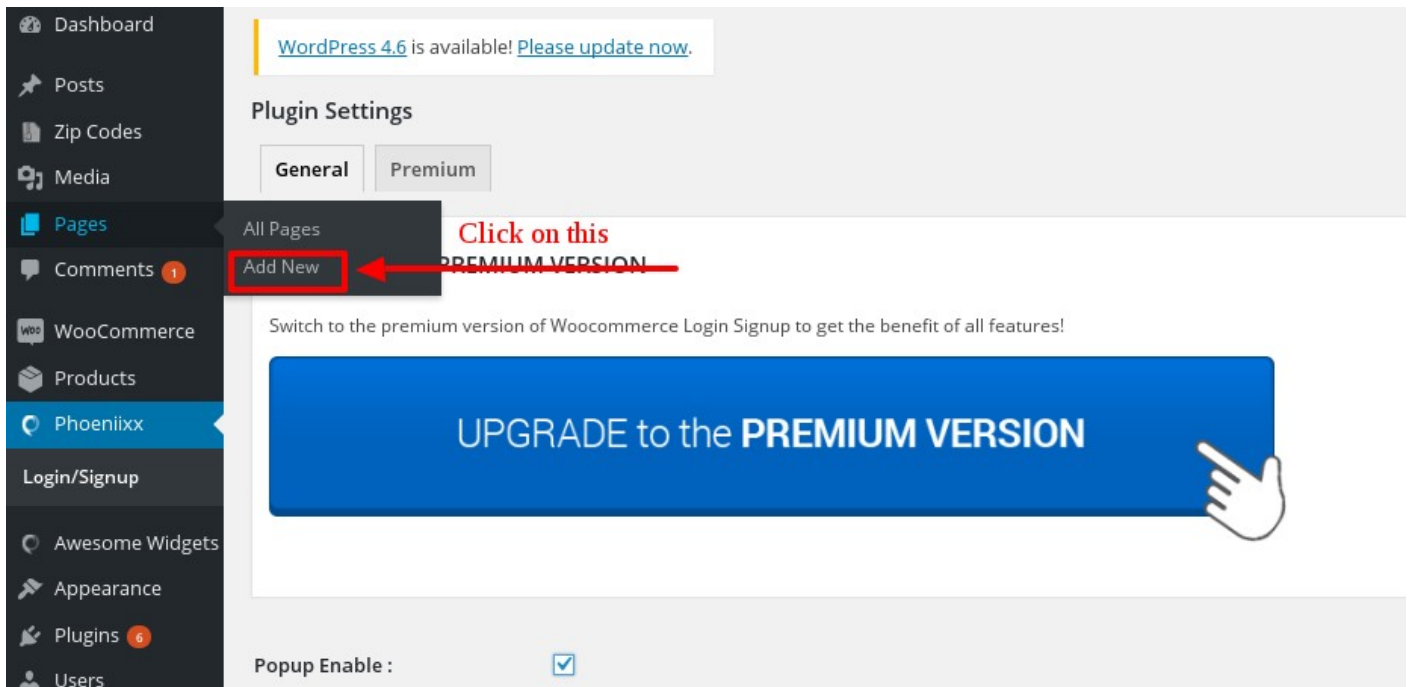

With this free Sign Up/ Login plugin, you can easily create a sign up and login process for your ecommerce site.

With this plugins you get short codes for:

- Short code for login form - `[lsphe-login-form]`
- Short code for signup form - `[lsphe-signup-form]`
- Short code for both login and register form - `[lsphe-header]`

How to add Login / Sign up button on page?

- Go to Pages, click on "Add New".

- First give title. Then add shortcode for the login/signup form. Then click on the Publish button.

The screenshot shows the WordPress 'Add New Page' editor. The title field contains 'NewPage' and is highlighted with a red box and an arrow pointing to it with the text 'Give title here'. Below the title, the permalink is 'http://hemani.codiix.com/newpage/'. The editor area contains three shortcodes: '[isphe-login-form]', '[isphe-signup-form]', and '[isphe-header]', each enclosed in a red box with an arrow pointing to it and a label: 'shortcode for login form', 'shortcode for sign up form', and 'shortcode for both login and sign up form' respectively. On the right sidebar, the 'Publish' button is highlighted with a red box and an arrow pointing to it from the 'Move to Trash' button.

- After click on the Publish button, click on this Permalink option.

The screenshot shows the 'Page published' notification and the published page. The notification says 'Page published. [View page](#)'. The page title is 'NewPage'. The permalink is 'http://hemani.codiix.com/newpage/' and is highlighted with a red box and an arrow pointing to it with the text 'Click on this permalink'. The editor area shows the shortcodes '[isphe-login-form]' and '[isphe-signup-form]'.
