

## Documentation of Woocommerce Custom Fields for Variations

### Installation of Woocommerce Custom Fields for Variations

#### Installation

1. Install Word Press from [http://codex.wordpress.org/Installing\\_WordPress](http://codex.wordpress.org/Installing_WordPress).
2. **Upload via FTP:** - Unzip the zip archive you have downloaded on your computer. Upload the folder to your server via FTP into the directory plugins on your Word press installation (wp-content → plugins).
3. **Upload via Word press Admin:** - Go to your WordPress admin panel, and then to Plugins. Click on "Add New" and then upload the zip file of the plugin using the "Upload Plugin" button you can find on top of the screen.
4. For the plugin to work as it should, WooCommerce plugin has to be installed and enabled.

#### Activation

Once you have uploaded the plugin, activate your plugin in Plugins > Installed plugins. If it has been activated correctly, plugin control panel is available in the tab **Phoeniix -> Custom Variations Pro** in WordPress dashboard.

## How to add the Attributes?

- Go to the **Attributes** tab under products
- Then create the attributes.

- Click on the **Add Attribute** button to save it.

Attributes let you define extra product data, such as size or color. You can use these attributes in the shop sidebar using the "layered nav" widgets. Please note: you cannot rename an attribute later on.

No attributes currently exist.

**Name**  
Color ( step 2 )

Name for the attribute (shown on the front-end).

**Slug**

Unique slug/reference for the attribute; must be no more than 28 characters.

Enable Archives?  
Enable this if you want this attribute to have product archives in your store.

**Type**  
Select ▾

Determines how you select attributes for products. Under admin panel -> products -> product data -> attributes -> values, **Text** allows manual entry whereas **select** allows pre-configured terms in a drop-down list.

**Default sort order**  
Custom ordering ▾

Determines the sort order of the terms on the frontend shop product pages. If using custom ordering, you can drag and drop the terms in this attribute.

**Add attribute** ( step 3 )

## How to add the Terms for the Attributes?

- Click on the “**Configure Terms**” option.

**Attributes**

**Add new attribute**

Attributes let you define extra product data, such as size or color. You can use these attributes in the shop sidebar using the "layered nav" widgets. Please note: you cannot rename an attribute later on.

**Name**

Name for the attribute (shown on the front-end).

**Slug**

Unique slug/reference for the attribute; must be no more than 28 characters.

Enable Archives?  
Enable this if you want this attribute to have product archives in your store.

**Type**  
Select ▾

Determines how you select attributes for products. Under admin panel -> products -> product data -> attributes -> values, **Text** allows manual entry whereas **select** allows pre-configured terms in a drop-down list.

Name	Slug	Type	Order by	Terms
Color	color	Select	Custom ordering	<b>Configure terms</b> (click on this)
Size	size	Select	Custom ordering	– Configure terms

- After that write the name for the term of an attribute and save it

**Product Color**

Attribute terms can be assigned to products and variations.

**Note:** Deleting a term will remove it from all products and variations to which it has been assigned. Recreating a term will not automatically assign it back to products.

**Add new Color**

**Name**  *give the name for the term( step 1 )*

*The name is how it appears on your site.*

**Slug**

*The "slug" is the URL-friendly version of the name. It is usually all lowercase and contains only letters, numbers, and hyphens.*

**Description**

*The description is not prominent by default; however, some themes may show it.*

**Add new Color** *click on it ( step 2 )*

Bulk Actions

<input type="checkbox"/>	Name	Description	Slug
No "Color" found			

Bulk Actions

## How to Add Attributes to a Product?

- Go to the **All products** tab -> then click on edit.
